To Whom It May Concern:

Re: Hilti HPS-1 Impact Anchors/LEED Info.

The Hilti HPS-1 Impact Anchors are assembled in Liechtenstein. The plastic anchor body is manufactured in Germany and the UAE. The screws are manufactured in Liechtenstein.

The HPS-1 Impact Anchors are manufactured from a high grade nylon material (polyamide). There is no post-consumer or pre-consumer recycled plastic used in the manufacture of these anchors. The screws are manufactured from carbon steel. The post-consumer recycled steel content is 25%. The pre-consumer recycled steel content is not known.

The VOC content for Hilti HPS-1 Impact Anchors is 0 grams/liter.

Please feel free to contact me at (918) 872-3704 if you have questions.

Sincerely,

A handwritten signature in black ink, reading "Jerry Metcalf". The signature is written in a cursive style.
